Numb. 2513

Tuesday, July 12. 1743.

Yesterday arriv'd a Mail from France.

Hague, July 15.

WE have received the following extraordinary Paper from Germany, which occasions much Speculation; the rather, because throughout the Whole there is not the slightest Notice taken of the Emperor; which shews that he was shaken off by the House of Bourbon before he made any Provisional Treaty with the Queen of Hungary.

'The underwritten Ambassador Extraordinary and Plenipotentiary of his Catholick Majesty in Germany, has 'already exposed, by the solemn and authentick Act of 'Protestation, which he was authorized by the King his 'Master, and by express Order of his Catholick Majesty, 'did make at Lignitz in Silesia, June 19. 1741, and 'which he took care should be dispersed where-ever he 'thought it was necessary.

'That the Moderation of the King his Master, as notorious as his ardent Desire of maintaining and co-operating towards the Tranquillity and common Safety of that most respectable Community, the Germanic Body, which had engaged him to content himself with a bare Mention of his Rights to the Succession of the late Emperor Charles VI. of glorious Memory, (how evident so ever they were, and how capable so ever he might be of turning them to his Advantage) by the solemn Protestation which Don Joseph Carpentero, Secretary of the Embassy to the Court of Vienna, made in favour of those Rights on the 17th of January, in the same Year; and till such time as those Rights could be more fully demonstrated to all the World, he gave a Memorial, or judicial State of the Facts, not only to all the Electoral Ministers at Franckfort, but also to the Elector of Mentz himself in his proper Court, and in the Form the most solemn, the Dyet of Election having not then been open'd.

'Having however learned, that notwithstanding the taking of this Step, the most Serene Great Duchess of Tuscany, born Arch-Duchess of Austria, under Colour of the Pragmatick Sanction (altho' that Sanction was tendered to the Princes who guarantied it, and accepted by them on a Supposition that it affected no Body's Right) continues all this time to attribute to herself the Sovereignty of the Kingdoms, and other Dominions possessed by the late Emperor, her Father; and has even caused herself to be crowned Queen of Hungary. Against which Act the said Ambassador protested, reserving entirely to the King, his Master, the Rights which his Catholick Majesty had to succeed; Rights which the States of Hungary, who received many Copies of this Protest, could not but be well acquainted with; since in 1689, when the Emperor Leopold the First caused his Son Joseph to be crown'd King of Hungary, the States resolved, and obliged themselves to acknowledge his Catholick Majesty, and his Successors, in Quality of Heirs of the Crown of Hungary, in case the Masculine Line of the Emperor Leopold should fail.

'The Armaments that have been made for the just Defence of this Title, and for the Recovery of a Part of what so incontestibly belongs to the King his Master, is known to all the World. The Justice of the Cause has been fully proved by Printed Pieces, which have been every where published and dispersed, as well to justify and maintain his Royal Title, as to refute what had been written by the Court of Vienna, contrary to his Catholick Majesty's Rights, and the Judicial State of the Case before-mentioned.

'It was in Consequence of the same special and precise Order of the King his Master, that he protested in like Manner, and in the Form the most authentick, at Munich, on the 4th of the Month of last May, against the Coronation which the most Serene Great Duchess of Tuscany intended (tho' without any Right) in Quality of Queen of Bohemia; and he took care also to observe in the said Protest, that these incontestible Rights of his Catholick Majesty could not possibly be unknown to the States of Bohemia.

'But as it has been published, that, notwithstanding all that is past, the Serene Grand Duchess of Tuscany, born Arch-duchess of Austria, persisting still in the same Notions, and making use of the Opportunity afforded her by the casual Events of War, is preparing at Lintz to receive the Homage of the States, and intends to proclaim herself there Sovereign and Proprietary of the Dominions of Austria; still founding her 'Rights on the Pragmatick Sanction before-mentioned, 'of the Emperor Charles VI. her Father (tho' that 'Prince had declared it was not intended to prejudice 'the Rights of any Person whatever.) A Supposition 'just and worthy of him, and without which it would 'never have been received by the Empire, or guarantied 'by other Powers, considering its Injustice, Prejudice, 'and Damage, to Rights and Pretensions long before 'established; of which, without Question, the States of 'Aust[illegible] well apprized.

'It is for this Reason the under-written Ambassador 'Extraordinary and Plenipotentiary, solemnly protests a-'new, in the Name of the Catholick King his Master, 'by his Royal and positive Order (as being authorized 'to that Effect) against the above-mention'd Act intended 'in the said States. His Catholick Majesty reserving entirely to himself the Rights to which he succeeded, 'and which must appear evident to all, who will not 'digress from, and shut their Eyes against Truth itself.

'Done at Augsbourg, June 16, 1743.

'Signed, Conde de Montijo.

'By his Excellency's Command,

'Don Juan de Villegas.'

Extract from the Paris Alamain.

Paris, July 15. 'The King intends to send the Duke 'of Gramont Permission to name to all the Commissions 'vacant in the Regiment of French Guards, by the 'Death of Officers killed in the Affair of Dettingen, the '27th of last Month.

'His Majesty and the Ministry receive frequent Couriers from different Quarters, but as to the Contents 'of their Dispatches, not a Syllable transpires.

'Madam, the Duchess of Modena, arrived here Yesterday.

'By a Letter from the Army on the Maine, dated the '7th, we learn, that Messieurs de St. Aubin, de Tavannes, de la Buffe, and de Beuvron, are not dead, as 'had been formerly reported.

'The Court dispatched on the 5th a Courier to the 'Count de Saxe, with Orders to cause the First Division of the Troops that are returning from Bavaria, 'to remain at Wimphen till they shall receive farther 'Instructions; and to order the other three Divisions 'to continue their March by Wormes and Spire. The 'Count de Saxe, on the Arrival of this Courier, set out 'instantly for the Army on the Maine.

'The Troops which compose the First Division of 'the Army before-mentioned, are those detached to re-'inforce M. Broglio at Ingoldstadt, and are all that the 'Court now thinks proper to reinforce the Army of 'M. Noailes.

'They write from Offenbach, that the Army still 'continue in Sight of each other; that M. Noailles had 'caused several Places of the River to be sounded, 'whence it was conjectured that this General intended 'to force the Allies to a decisive Battle.

'The Division that forms the Rear Guard of the Army 'which lately evacuated Bavaria, has suffered exceedingly by the Hussars and Pandours, who carried off 'abundance of Baggage, their Bread Waggons, and about '1000 Sick and Wounded who were going to Ulm.

'The Circles of Franconia and Wirtemberg having refused Prince Charles of Lorrain Passage through their 'Territories for his Army, he will be obliged to re-'move quite round by the Sources of the Maine, in 'order to come at Franckfort, and the Auxiliary Army 'in its Neighbourhood.

'It is confidently reported, that the Treaty between 'the Emperor and the Queen of Hungary is actually 'concluded.'

Concerning Gleets *and* Seminal Weakneſſe *of all Kinds.*

ALL judicious Phyſicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weakneſſes, whether occaſion'd by too ſevere purging for Venereal Injuries, violent Strains, Pollutio ſui, or any other Cauſe whatever; and that they are dangerous in their Conſequences, as well as difficult to cure, is as certain, ſince they exceedingly weaken the Generative Faculties, infeeble the whole Nervous Syſtem, often bring on Hectick Heats, a Tabes Dorſalis, or Conſumption of the Back, or an Atrophy or Nervous Conſumption, which frequently terminate in Death itſelf.

All ſuch, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effuſions, Involuntary Emiſſions, exceſſive Nocturnal Pollutions, or any Weakneſs of the Kidneys, Ureters, or Bladder, the Diabetis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtleſs be glad to meet with a certain, ſafe, and ſpeedy Cure; which they moſt aſſuredly may, by taking only a ſmall Quantity of a tranſcendent BALSAMICK RESTRICTIVE ELECTUARY, now publiſhed for a general Good, after having for many Years been experienc'd never once to fail perfectly curing the moſt Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as alſo all other Weakneſſes of the Back, Reins, Seminal Veſſels, and Urinary Paſſages, whichit almoſt inſtantly cures, bringing to rights and reſtoring all thoſe Parts and Paſſages to their natural Tone and priſtine Vigour, in a very extraordinary Manner, and by taking a few Doſes of it only.

This tranſcendent BALSAMICK RESTRICTIVE ELECTUARY is neither diſagreeable to take, nor occaſions the leaſt Diſorder, but is a wonderful Reſtorative in all Weakneſs and Decay of Conſtitution of any Kind, and particularly ſtrengthens the Back, Reins, Seminal and Urinary Veſſels to an immenſe Degree, inſomuch that in any Debility of them, one Doſe of it does more than ten of any other Remedy yet found out; and all Perſons fatigu'd with Gleets or Seminal Weakneſſes of any Sort, or Weakneſſes of the Urinary Veſſels, who take it, will in three Days time find it ſo very effectual, that they will be moſt agreeably ſurpriſed at it.

When a Medicine will infallibly accompliſh ſuch a ſpeedy and perfect Cure of ſuch difficult Maladies, as Gleets and Seminal Weakneſſes are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be ſaid in it, and this All who ever took it for any of the above-mention'd Purpoſes have readily declared.

The Price is but 6 s. a Pot, altho' for its abſolute Efficacy one Pot alone being ſufficient in moſt Caſes to accompliſh a Cure, worth ten times as much, and by the Author's ſpecial Appointment, is to be had only at Mr. Radley's Toy-ſhop, at the Roſe and Crown againſt St. Clement's Church-Yard in the Strand, ready ſealed up, with a Book of Inſtructions, which whomſoever carefully reads will preſently know, when the Gleet or Weakneſs he is afflicted with ſucceeds a Venereal Injury, whether all the Malignity of the Foul Diſeaſe is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balſamick Electuary.

The HEMORRHOIDS or PILES,

A very troubleſome Diſtemper, common to many Perſons of both Sexes, and all Ages, and if neglected, or ill manag'd, often proving dangerous in the Conſequences, and being ſeldom thoroughly cur'd without Relapſe,

IS the Reaſon of this Publication, that all ſuch Perſons of either Sex, or any Age, may know where to have preſent Relief, and in a few Days a perfect Cure, let their Caſe be ever ſo bad, or the Piles of any Kind, inward or outward, ſwell'd or bleeding, or of the very worſt Sort that ever was known

By a pleaſant and delightful Chymical Powder, to reſtore in its Effects, that not one in five thouſand that take it miſs of a Cure; and ſafe in Operation, that the moſt aged, or the young Infants, may take it with the greateſt Safety; for it neither purges nor cauſes the leaſt Diſorder to the Patient, only operates gently by Urine, and keeps the Body cool and temperate; but it very powerfully rectifies both the Blood and Juices, takes off the Acridneſs thereof, which is the true Cauſe of this Diſtemper, and deſtroys it Root and Branch, as many thouſands that have taken it find to their unſpeakable Comfort and Satisfaction.

It is ſold for 3 s. 6 d. each Box, at Mr. King's Pitcher in the Poultry; and at Mr. Martin's Shop, the Sign of the Duke of Cumberland, in Cranbourn-Alley near Leiceſter Fields, and no where elſe in England.
